

TAHOE SCIENCE ADVISORY COUNCIL

Program Status and Update

Robert Larsen

SCIENCE AT LAKE TAHOE

- Strong science/management partnership
- The Council is the latest iteration

Council Overview

Established in 2015 by bi-state MOU

Two (2) members from:

- University of California, Davis;
- The University of California system;
- The University of Nevada, Reno;
- Desert Research Institute;
- The US Geological Survey; and
- The USFS Pacific Southwest Research Station.

Council Approach

- Link science with management needs
- Provide a collaborative science perspective
- Coordinate how findings/products are used
- Maintain a venue for science/policy dialogue

COUNCIL WORK

- Current management issues
- Review and assessment
- Planning
